Get Equipped to Prosper

## Ready to take your business to the next level?

On August 11, 2022, Cook County launched Manufacturing Reinvented, a **\$5 million grant program** to support suburban Cook County manufacturers. This program reimburses manufacturers for implementation of projects designed to improve productivity, develop future leaders, train your workforce, and grow your business. The Illinois Manufacturing Excellence Center's expert advisors will work one-on-one with manufacturers to define project scope, evaluate solution options, and chart a path forward for each manufacturing awardee. Grants range from \$5,000 to \$25,000 depending on the nature of the project.

Please visit the [Manufacturing Reinvented](#) website for more information.

Round I applications are due September 1, 2022

Contact [Christine Nappo](#) to learn more.
